PROFILE

I am a third-year Computer Science student at Asia Pacific International University in Thailand. I have knowledge of computing and networking, and I am learning web development and blockchain.

EDUCATION

Computer Science - In Progress

Asia Pacific International University, Thailand | 2024 - Present

Third year (Junior). Coursework includes data structures, algorithms, databases, web development, and software engineering fundamentals.

Higher National Diploma in Computing & Networking

Y-Max Private University, Myanmar | 2020 - 2022

Certified by the Scottish Qualifications Authority (SQA).

Studied network infrastructure, systems administration, and protocol management, with practical work in network configuration, server environments, and connectivity troubleshooting.

TECHNICAL SKILLS

Programming: JavaScript, Python, Java

Tools and systems: Git, GitHub, Linux

Networking: TCP/IP, routing and switching, network troubleshooting

Currently learning: Blockchain, Web3, Solidity

HACKATHON EXPERIENCE

Monad Blitz Hackathon - Participant / Developer

2025

Collaborated with a small team to explore blockchain and Web3 concepts during a fast-paced hackathon.

Studied Monad's parallel EVM architecture and gained exposure to smart contract environments and decentralized deployment.

Team1 Codebase Hackathon: Chula Edition - Participant

Bangkok | Sep 26, 2026 | Web3 / Avalanche
