

Wai Phyo Aung

Computer Science Student | Web & Blockchain Learner

waiphyo5901969@gmail.com | github.com/waiphyoaung-969 | linkedin.com/in/wai-phyo-aung-rain

PROFILE

Third-year Computer Science student at Asia Pacific International University in Thailand with a foundation in computing and networking. Currently building practical skills in web development, blockchain, Web3, Linux, databases, and software development through coursework and hackathons.

EDUCATION

B.S. Computer Science - Asia Pacific International University

Thailand | 2024 - Present

- Junior year. Coursework includes databases, web development, software engineering, data structures, algorithms, OOP, systems analysis, and related computing fundamentals.

Higher National Diploma - Computing & Networking

Myanmar | 2020 - 2022

- Y-Max Private University. SQA-certified program covering network infrastructure, systems administration, and protocol management.

EXPERIENCE

Computer Essentials Instructor - Self-Employed

Yangon | 2022 - 2023

- Taught foundational computer skills including hardware basics, software applications, productivity tools, and practical digital skills.

HACKATHONS & HANDS-ON LEARNING

Team1 Codebase Hackathon: Chula Edition

Bangkok | Sep 26, 2026

- Participated in a one-day Web3 builder hackathon focused on decentralized applications on Avalanche.
- Practiced rapid prototyping, collaborative problem solving, mentor-driven iteration, and product pitching in a fast-paced environment.

Monad Blitz Hackathon

Bangkok | 2025

- Collaborated with a small team to explore blockchain and Web3, with exposure to Monad's parallel EVM architecture and smart contract environments.

TECHNICAL SKILLS

Programming:	JavaScript, Python, Java, PHP
Web / Data:	HTML, CSS, MySQL, database design, basic web development
Tools / Systems:	Git, GitHub, Linux, VS Code, terminal workflows
Networking:	TCP/IP, routing & switching fundamentals, troubleshooting
Emerging:	Blockchain, Web3, Solidity fundamentals, Avalanche ecosystem exposure

Focus: Learning by building | Web development | Blockchain/Web3 | Problem solving | Team collaboration
